**Customers are eligible for wholesale pricing once total orders exceed 500MT per year.*

Vancouver Island's one-stop, sustainable alternative to landfilling & quarrying.

Water Neutral

Lower CO₂

Small Land Footprint

No Mining

Waste-to-Resource

GRT's Resource Regeneration Facility uses a unique tech stack to wash and sort excess soils, producing 100% recycled Regenerock aggregate for your construction, landscaping, and reclamation needs. No virgin material used. Ever.

GRT also accepts **upland soils, hydrovac and dredge material up to IL+ levels.**
We do not accept hazardous waste.
